10.	A session on Intellectual property rights and prior art search	14 – 15

Preamble

In the pursuit of academic excellence and holistic development, Srinivas Institute of Technology (SIT) remains steadfast in its commitment to fostering an environment that nurtures innovation, research, and entrepreneurial spirit. The institution acknowledges the vital role that workshops, seminars, conferences, and specialized programs play in shaping the intellectual landscape of our academic community. Over the past five years, SIT has consistently strived to enhance the academic experience by organizing a spectrum of events dedicated to Research Methodology, Intellectual Property Rights (IPR), and Entrepreneurship. These initiatives serve as pillars that fortify our commitment to providing students with a comprehensive and forward-looking education. As we reflect on our journey, it becomes evident that these workshops and programs have not only expanded the horizons of knowledge but have also contributed significantly to the overall growth of the SIT community. The exchange of ideas, the exploration of innovative methodologies, and the in-depth understanding of intellectual property and entrepreneurship have become integral components of our academic ethos.
